

We understand that the smallest details can make the biggest difference...

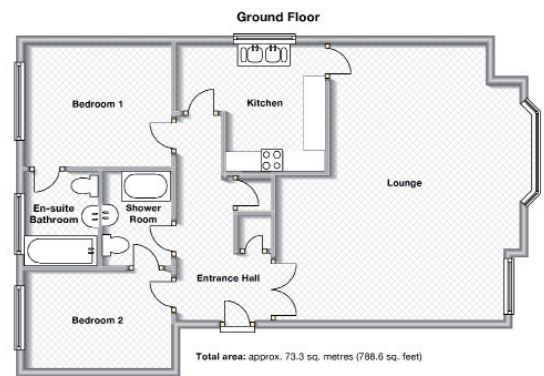

Professional quality wide angle SLR photography

The photographs of your property seen by potential buyers are of paramount importance and at Homefront we ensure that all the features of your home are viewed positively. Using wide angle **SLR digital photographs**, potential buyers gain a broader perspective of the key selling features of your home.

Detailed floorplans to help sell your home

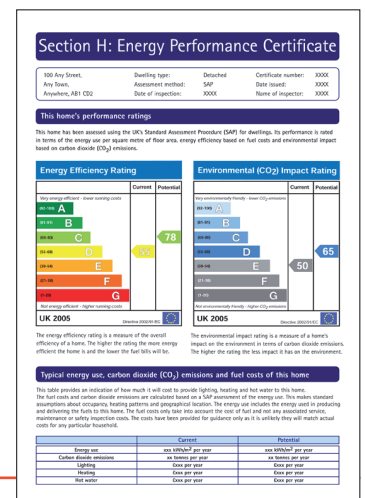

Floorplans on all property particulars are rapidly becoming industry standard and vendors using agents who supply floor plans are advantaged in having an overview of the floor area. For example, the position of the kitchen in relation to the lounge or the bathroom can be of importance to some buyers and will help significantly in planning their new home.

FREE EPCs on all sales instructions

The Energy Performance Certificate is now legally required before an agent is permitted to actively market a property and at Homefront we are extending an offer to all our new vendors to supply one **FREE EPC** subject to terms and conditions. The certificate will remain the property of Homefront and used by the owners when selling their property under our agency agreement.*

*Should the property be withdrawn from the market or another agent instructed without us as a joint selling agent, then we will make a nominal charge of £75 for the EPC.
